Carlos Velasco

Professional Glass Works, LLC., Founder

4015 Luell St.
Houston, TX 77093

Cell: 832.887.7976
Email: carlos@pg-works.com

PROFESSIONAL PROFILE: Experienced Project Superintendent leading multiple crews in the execution of high-profile, multimillion dollar construction projects for leading subcontract glazing companies and general contractors. Experienced in all facets of Iron Works related to curtain wall, glass & glazing systems. Expert in laying-out complex construction projects as well as problem solving challenging constructability issues.
Demonstrate a thorough knowledge in building forensics and water management.

Key strengths include:

Excellent Collaborator with Stake Holders	Strategic Planner & Problem Solver
Extreme Ownership & Excellence	In-depth Understanding of Construction
Strong Ethics – Do the Right Thing	Ability to Lead and Inspire

PROFESSIONAL EXPERIENCE:

➢ **Iron Worker**
Haley-Greer, Houston, TX **July 1993 – April 2008**
Gained a position with the company as a helper and quickly exceeded expectations and became a Journeymen in less than four (4) years. Promoted to foreman overseeing crews ranging from 5-10 men. Demonstrated a thorough knowledge and experience installing window walls, I-beam curtain walls, stick built curtain walls, unitized curtain walls, and storefronts as well as hurricane storefront and curtain wall systems. Expertise in constructing mock-ups and water testing. Led and oversaw crew(s) in all matters pertaining to QAQC, building forensics, and water management details. Expanded my knowledge and experience in fabrication, assembly, and glazing of all window wall and curtain wall systems.

➢ **Founder**
The Professional Glass Work, Corp., Houston, TX **April 2008 – Present**

Started a DBA as The Professional Glass Work in 2008 and incorporated in 2011. Grew the company to over 100 employees for approximately three (3) consecutive years.

Proven Skills and Accomplishments:

- During my tenure as a business owner, I have gained excellent communication skills.
- Led with my knowledge of construction and best practices.

- Demonstrated great problem solving and decision-making skills.
- Hired and trained some of the best glaziers and iron workers in the Houston market.
- Conducted field inspections and testing protocols for quality assurance.
- Accurately took-off materials for fabrication and installation.
- Proven leader in all aspects of safety and heavy equipment operations.
- Developed site specific safety plans.
- Formulated site specific execution plans in accordance with project schedules to ensure timely completion of projects and within budget.
- Strong organizational skills, including time management, delegation, prioritization, and multitasking of project specific scopes of work.
